PRODUCT DESCRIPTION

Designer: Dodo Arslan

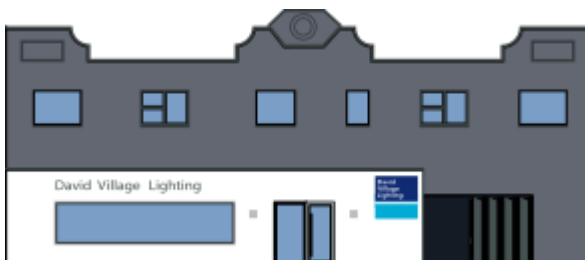

Terzani Anish LED Pendant

Terzani Anish LED Pendant was designed by Dodo Arslan, who was inspired whilst playing with spoons with his daughter. Arslan became fascinated by the almost infinite reflections within spoons unleashed due to their concave and convex surfaces and decided to incorporate this idea with lighting. He also drew inspiration from Italian flatware manufacturer Sambonet and created a pendant constructed of spoons, ranging from the smallest teaspoon to serving spoons. This design enhances the reflective quality of the spoon shape.

Anish LED Pendant can be strategically positioned above a kitchen or dining table to produce an eye-catching display. Anish is available in two size options, providing great variety for all sized rooms and environments, whether they're commercial or residential. Suspended by slender cables, the Anish LED Pendant produces a mesmerising display.

PRODUCT SPECIFICATION

Light Source:	27W, 3000K, 3970 Lumens
IP Code:	20
Dimming:	Dimmable via 1-10V dimming systems. Please consult your electrician, additional wiring may be required on site.
