## PRODUCT DESCRIPTION

**Designer:** Arihiro Miyake

## Moooi Coppélia Suspended LED Chandelier

Moooi's Coppélia Suspended Chandelier is designer Arihiro Miyake's interpretation of a classic chandelier. Named after the famous ballet, Coppélia mimics the graceful presence of a ballerina. The three-dimensional, cross-wired structure holds dozens of LED lights, which define the contour and magical glow of the chandelier. The metal frame is available in a chrome or black finish, which adds to the suspension's elegant and luxurious appearance.

The Coppélia Suspended Chandelier is available in two sizes: small, which has a 60cm diameter, or large, which has a 101cm diameter. The small frame houses 36 light sources, while the large houses 54 bulbs. When lit, the Coppélia floods the room with light, creating a captivating display and ambient glow. The eye-catching presence of the Coppélia makes it ideal for installing above a dining table or in an entrance hall to create a lasting impression. In commercial spaces, the Coppélia can be installed in hotel lobbies or restaurants to create a welcoming environment while adding a sense of luxury.
