AJ Floor Lamp by Louis Poulsen

Louis Poulsen are celebrating the 60th anniversary of the AJ floor lamp, designed by the iconic Arne Jacobsen by releasing a vibrant and new colour palette. The finishes are related to Jacobsen's design style and have been chosen as they best compliment the character of the [Louis Poulsen AJ collection](#).

The floor lamp was originally made for the SAS Royal Hotel in 1960 by Jacobsen who designed everything from the building to the furniture and finishes inside. The AJ floor light is eye-catching yet subtle within its surroundings, emitting a downward directed light that is warm and inviting. The shade can be moved and swivelled, allowing the user to direct the light where needed, perfect for reading and tasks. Choose from the various chic finishes to find the right colour for you and do not miss out on this piece of history as a functional and decorative light in your interior.
