PRODUCT DESCRIPTION

Designer: Arne Jacobsen

Louis Poulsen AJ Table Lamp

The Louis Poulsen AJ Table Lamp was first designed by Arne Jacobsen for the SAS (Scandinavian Airlines System) Royal Hotel in 1957. With the hotel opening in 1960, the hotel and every single thing in it was designed by Jacobsen, from the lights down to the cutlery. Boasting minimalist and clean lines, the AJ table light epitomises Jacobsen's style and is now being celebrated and brought to the modern eye, 60 years after its initial release.

The AJ Table Lamp has a downward light with an adjustable shade so you can angle the light where needed. Available in a variety of colours, including the original Pale Petroleum. The inside of the shade is painted white so you can have a soft glow for maximum cosiness. The AJ Lamp can be used in a vast range of domestic and commercial settings, being very suitable for desks, lounge areas and bedside areas. To create a completely seamless lighting scheme, pair with other lights from the **Louis Poulsen AJ collection.**
