### AJ Wall Light by Louis Poulsen

Louis Poulsen is honouring Arne Jacobsen and celebrating the 60th anniversary of his iconic design with a new and dynamic colour universe for the popular AJ table, floor and wall lamps. The colours are closely linked to Jacobsen's own universe and have been carefully selected on the basis of how the colours best highlight the essence of the AJ wall lamp.

Originally designed in 1960 By Jacobsen for the SAS Royal Hotel in Copenhagen, today the collection has iconic status. The AJ collection is striking yet not imposing, it has a swivelling shade and sculptural design. The diffuser creates a focused beam of light with very little glare - the perfect way to illuminate reading desks and kitchens alike and the shade is painted white on the inside to ensure a soft comfortable light.

True to Scandinavian style, this wall light features a cable and plug which requires a nearby power socket. Alternatively, the light can be hard-wired into the wall by a qualified electrician if preferred.

Designer: Arne Jacobsen

IP Code: 20

Dimming: Integrated on/off switch on the product

Dimensions:

18cm height

24.7cm shade length

31.8cm depth

Ø9cm wall base
