## PRODUCT DESCRIPTION

**Designer:** Markus Johansson

### Le Klint Carronade II Pendant

The Carronade II Pendant was designed by Markus Johansson for Le Klint and was created using the idea of a small lamp, inspired by a cannon, shooting light where directed. This pendant can be installed as a single light, but multiples can be displayed at various heights and angles to create a dramatic effect. The metal washers on either side of the shade allow you to angle the illumination where needed.

The Le Klint Carronade II Collection features a floor lamp and pendant. Both pieces have minimalistic profiles that feature a wooden strap and brass detailing, adding an ornamental element to the lamps. The rotating shade makes the Carronade pendant an ideal task light above a workstation or table. Display in domestic or commercial spaces to complement modern interiors.

## PRODUCT SPECIFICATION

| | |
|---|---|
| **Light Source:** | 1 x Max 20W LED E14 (Excluded) |
