PRODUCT DESCRIPTION

Designer: Aurélien Barbry

Le Klint Facet Wall Light

French designer Aurélien Barbry's aim was to create an iconic yet simple shaped wall lamp useable in both indoor and outdoor environments. Barbry wanted to move away from Le Klint's paper and plastic shades and create a flexible wall lamp which utilised a durable material, thus the Facet wall light was born. The Facet wall lamp is made out of steel and has a truncated cone shape, which gives a fantastic display of light both upwards and downwards.

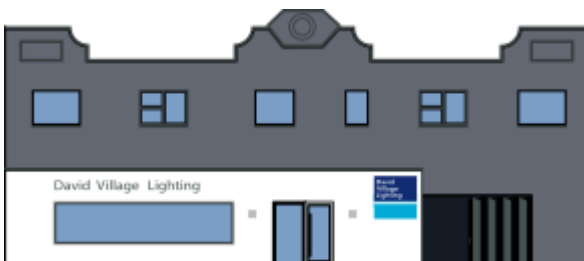

Babry's next aim was to enhance the [Le Klint Facet collection](#) by creating removable and addable features. These include a removable top plate and two sizes of base plate which can be used for house or room numbers, or simply to add an extra reflective quality. This lighting concept is available in a choice of copper, matt black and grey finishes and can be used with or without the optional base plates.

PRODUCT SPECIFICATION

Light Source: 8W, 2700K, 750 lumens

IP Code: 44

Dimensions: 17cm height
24cm width
13cm depth
