PRODUCT DESCRIPTION

Designer: Harrit - Sørensen + Samson

Le Klint Snowdrop 320 Table Lamp

Design trio Thomas Harrit, Kim Samson, and Nicolai Sørensen created the Snowdrop table lamp for Le Klint. The Snowdrop combines traditional methods with a contemporary design. The pleated shade is synonymous with Le Klint and replicates the delicate petals found on a snowdrop flower, while the arched, metal frame mimics the flower's stem. The Snowdrop table lamp is available with a plastic foil or paper shade. Each shade is expertly hand-folded in Le Klint's pleating studio in Odense, Denmark. While similar in appearance, the plastic foil shade is fire-retardant and UV-resistant. Over time, the paper shade will patinate and develop a golden hue.

The Snowdrop table lamp provides a welcoming ambience in any room. The pleated shade gently diffuses light into a warm glow that surrounds the lamp. The opening at the bottom guides light out, providing a functional downward lighting perfect for reading by. Display the table lamp with other pieces from the **Snowdrop Collection** to create a harmonious display throughout your home. In contemporary spaces, the Snowdrop table lamp is perfect for adding warm and welcoming lighting to spaces such as a hotel lobby or contemporary bar.

PRODUCT SPECIFICATION

Light Source:	1 x Max 25W E27 (Excluded)
IP Code:	20
Dimming:	In-line on/off switch included on cable.
Dimensions:	Ø20cm Height: 54cm Cable Length: 300cm
