

Zero Mist Suspension LED

LA4732

SOURCE: <https://www.davidvillagelighting.co.uk/product/zero-mist-suspension-led/17875>

Zero Mist Suspension by Front Design.

With Mist, Front continues its design experimentation with light and shade, hand-blown glass and LED technology. The result is a pendant, ceiling- and wall-fixture with double globes that diffuse the light evenly and pleasantly. The semitransparency of the outer glass globe provides depth and creates an illusion of light glowing through a mist.

MIST pendant is available in sizes 250, 350 and 450mm in diameter.

The inner shade is available in opal white, yellow or pink as standard.

Integrated LED.

LED dimmable version also available.

IP Code: 20
