PRODUCT DESCRIPTION

Designer: Stefan Diez

HAY Rope Trick Floor Lamp

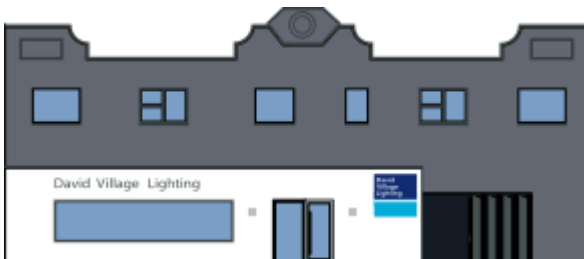

The HAY Rope Trick Floor Lamp was designed by Stefan Diez who uses flexibility and integrated LED to create modern and dynamic designs. The Rope Trick Floor Lamp is a clear example of this as it features a flexible arm that allows you to direct the diffused light to any angle. Mounted on a cast iron base, the long flexible arm can be lengthened and shortened as the shade and light source moves with ease up and down. This highly functional lamp is spatially diverse as it moves with elegance and precision. Another functional feature of this floor lamp is the integrated stepless touch dimmer that allows you to adjust the brightness of the LED with quickly and efficiently.

HAY Rope Trick Floor Lamp was inspired by curiosity and a network of local craftsmen. This inspiration has led to a modern and functional design that would fit into any interior such as a living space or workspace.
