PRODUCT DESCRIPTION

Designer: SmithMatthias

Hay Noc Clip Light

The Hay Noc Clip light was designed by SmithMatthias, a design duo based in London, who say their designs 'thrive on problem solving and seeking the perfect balance between need and want to reimagine products with intelligence, innovation and attention to detail'. This is clear within the design of the HAY Noc Clip light which uses a simple design and sleek look to create an adjustable and durable lamp perfect for any environment. The unique Clip function allows you to secure the lamp onto surfaces such as a table, shelf or worktop which adds to the adjustability and functionality of the design.

The in line on/off switch on the cable and the included blub make this light easy to install and ready to light up a room in an instant. With it's clip and adjustable shade, you can direct the light with precision and ease. This Hay Noc Clip light is also available in two finishes, Off White and Dark Grey which make it perfect for any interior.
