PRODUCT DESCRIPTION

Designer: Space Copenhagen

Copenhagen SC6 Pendant Light by &Tradition

The Copenhagen SC6 pendant is the result of Space Copenhagen's desire to create contrasts in their designs. Pairing industrial, modern materials with traditional and classic lines, they have created a pendant with a gorgeous curved lampshade and a contemporary metal fitting. The lampshade is made with either matt lacquered metal, spun into shape from one sheet or with mouth-blown opal glass, diffusing light nicely with a downward directed glow.

The fitting is made from bronzed brass, contrasting wonderfully with the delicate shade, making the Copenhagen SC6 pendant light a chic and elegant choice for your room. This pendant light works well over tables in the dining room, kitchen or lounge area. Mix and match colours to create an intriguing feature or cluster together with other sized pendants from the [&Tradition Copenhagen collection](#) to make a marvellous light display.

PRODUCT SPECIFICATION
