PRODUCT DESCRIPTION

Designer: Herzog & De Meuron

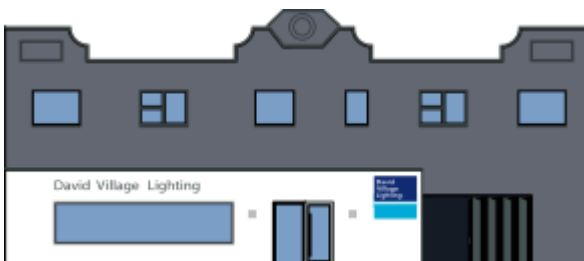

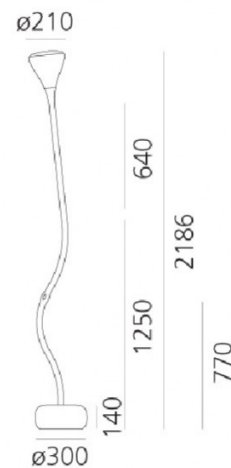

Pipe Floor LED by Artemide

The Pipe lights offer a range of flexibility and movement, as the stem is adjustable and the diffuser can be rotated. This lets you change and adapt the light depending on the task at hand, and easily changing the atmosphere in any space. The Pipe Floor Lamp has an integrated dimmer, allowing you to further modify light intensity.

A playful lamp with an undulating form and a silicone coated steel base. The diffuser has small circular perforations through which light escapes and beautifully highlights the Pipe's decorative details. All Pipe lights have been re-imagined with an integrated LED source, becoming energy efficient and eco-friendly. Explore the Pipe Collection, designed by Herzog and De Meuron.
