PRODUCT DESCRIPTION

Designer: Herzog & De Meuron

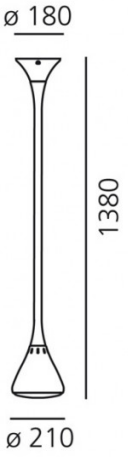

Artemide Pipe Suspension

Designed by Herzog & De Meuron, the Artemide Pipe Suspension blends whimsy with innovative design. An adjustable steel structure, covered in a natural anti-yellowing silicone case, offers flexibility and movement. The suspension can be twisted and angled to direct light where needed, while the rotatable diffuser provides even greater precision in direction. The polycarbonate diffuser is perforated to create a pleasantly sheer ambient lighting effect.

The Pipe Suspension has been reimagined with an integrated LED light source. This adaptation ensures that the suspension provides eco-friendly, energy-efficient lighting. With functional and directional light, the Pipe Suspension is well-suited for use as a reading light in an office, at a bedside, or in a living area. In commercial spaces, the Pipe adds a playful character and welcoming atmosphere to hotels and contemporary restaurants. Display in multiples, or with other pieces from the **Pipe Collection** for a captivating and unique composition.

PRODUCT SPECIFICATION

Light Source:	27W, 27000K, 1763 Lumens
IP Code:	20
Dimming:	Push to make/switch dimming, dimmable using push-to-make switches. Please consult your electrician; additional wiring may be required on-site.
Dimensions:	Ø21cm Length: 138cm Wall Fitting: Ø18cm
