## PRODUCT DESCRIPTION

**Designer:** George Carwardine

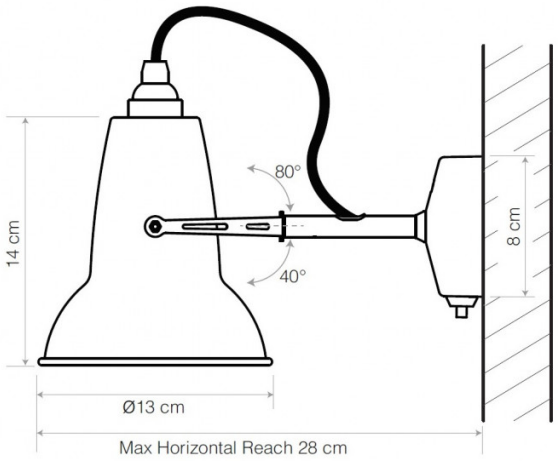

### Anglepoise Original 1227 Mini Ceramic Wall Light

The Anglepoise Original 1227 Mini Ceramic Wall Light is a directional wall light that exudes simplicity and elegance. The lamp features the same compact form as the **Original 1227 Mini Wall Light**, reimagined with a bone china shade. The glossy shade is complemented by chrome-plated fittings, which add to the lamp's decorative appearance.

When illuminated, the ceramic shade turns translucent, casting a warm and atmospheric glow. While the 1227 Mini Ceramic Wall Lamp radiates a delicate sophistication, it maintains the functionality synonymous with the **Original 1227 Collection**. The shade can be tilted and adjusted to direct light precisely where required. Display at a bedside for a functional reading light that adds a decorative touch to the room. Alternatively, install in rows lining the length of a hallway for a uniform glow that creates an inviting ambience.
