PRODUCT DESCRIPTION

Designer: Omer Arbel

Bocci 76.1 Pendant Light

The 76.1 Pendant, designed by Omer Arbel for Bocci, is a beautiful and unique light, made from blown glass. The intriguing, graphic pattern is formed from a vacuum pulling layers of clear and white glass through copper meshes that sit in between the glass layers. The mesmerising design also acts to create a warm glow, with a light source peering out from the centre, emanating out to the edges.

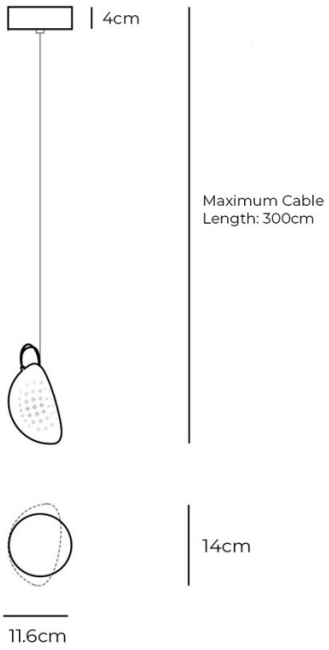

This sophisticated single pendant light comes with an LED light bulb provided by Bocci, which is long-lasting and effective; it is also supplied with a deep ceiling canopy included in the purchase. You can use the 76.1 pendant light in many settings, in both commercial spaces and homes, to provide a welcoming and functional illumination. The cable length is also adjustable so you can have a personalised look in your interior.

This pendant light comes with a deep ceiling canopy but is also available with a shallow or flush mini ceiling canopy. Please contact us for more information and prices.

Please Note: All Bocci Suspension Lights come with a white ceiling canopy as standard. Other finishes are available; please contact us for more information and pricing.
