PRODUCT DESCRIPTION

Designer: Boris Klimek

Brokis Memory Wall Light

The Brokis Memory Wall Light continues the playful charm of the Memory collection, transforming walls into canvases of light and imagination. Designed by Boris Klimek, the light takes the shape of a classic balloon, crafted from handblown glass with a delicately dangling cord. This string is not just decorative but functions as an integrated on/off switch, adding to the light's sense of whimsy and interaction.

Available in multiple colours, three sizes, and both matte and glossy finishes, the Memory Wall Light invites personalisation and creativity. Whether used as a standalone statement or grouped with other sizes and colours to form an installation, it evokes feelings of joy and lightness. Ideal for children's rooms, playful corners, creative offices, or feature walls in commercial spaces, Memory brings a sense of fun without compromising on craftsmanship.
