Axolight Orchid Floor Lamp

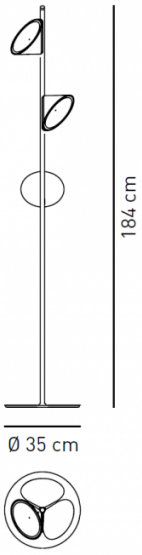

Inspired by nature, the Orchid Floor Lamp was designed by Austrian designer Rainer Mutsch. The lamp features three conical diffusers, which mirror the delicate elegance of flower buds attached to a slender stem. The conical shades are a well-considered design choice. As well as creating a sculptural aesthetic, the shape prevents overheating, providing maximum duration of use.

With each diffuser positioned facing different directions, the Orchid Floor Lamp provides both direct and indirect lighting. This makes the lamp suitable for use in a range of settings for both functional and ambient lighting. Display beside a sofa, dining table, or desk to add a sculptural presence to the room, even when not in use. An in-line dimmer on the cable allows users to easily adjust light intensity to suit any mood. Display with other pieces from the **Orchid Collection** for a cohesive display that brings a touch of nature into the home.

The Axolight Orchid Floor Lamp is available in 15 bold finishes, including yellow, red, green, brown, and grey. Contact us for more information.
