PRODUCT DESCRIPTION

Designer: Rainer Mutsch

Axolight Orchid PL Wall/ Ceiling Light

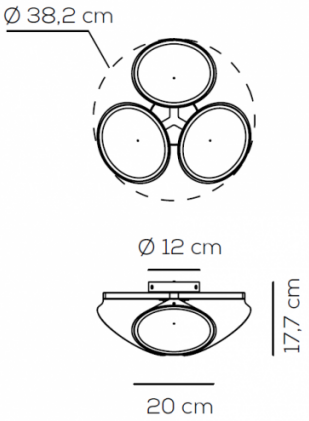

Created by Austrian designer Rainer Mutsch, the Axolight Orchid Wall/ Ceiling Light is an innovative lighting solution that expertly blends form and function. Three conical diffusers sit on a central plate, mirroring the delicate form of a flower attached to a stem. Crafted from aluminium, the diffusers are designed to prevent overheating and extend the lifespan of the light source.

The Axolight Orchid Wall/ Ceiling Light creates bright, functional lighting, perfect for illuminating large rooms, hallways, or staircases. The three conical shades produce a wide glow of light that is distributed evenly around the luminaire. Display in multiples for a creative installation that adds a decorative element, even when not in use. The minimalistic design suits a wide range of interiors in both domestic and commercial settings. Display with other pieces from the **Orchid Collection** to create a cohesive theme throughout the home that brings a touch of nature indoors.

The Axolight Orchid PL Wall/ Ceiling Light is available in 15 bold finishes, including yellow, red, green, brown, and grey. Contact us for more information.
