Axolight Orchid 3 Suspension

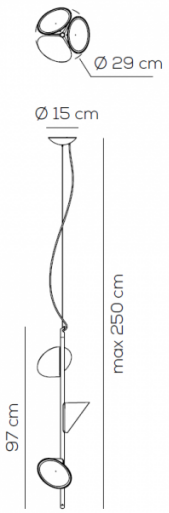

The Orchid 3 Suspension was designed by Rainer Mutsch for the Italian lighting brand Axolight. Mutsch drew inspiration from nature for the Orchid, looking at the way flower buds are connected to their stems. The sculptural frame features three conical diffusers that mirror a flower in bloom. This well-considered design is as functional as it is stylish, as the shape of the diffuser prevents overheating to provide maximum duration of use.

The sculptural presence of the Orchid 3 Suspension is as eye-catching off as it is when switched on. When illuminated, the diffusers create a wide spread of light for bright, functional lighting, perfect for use as a task light installed above a work surface. Display in a kitchen, dining room, or sitting room for a contemporary display that adds a touch of nature to your home. Display with other pieces from the **Orchid Collection** to create a cohesive theme throughout your home.

The Axolight Orchid 3 Suspension is available in 15 bold finishes, including yellow, red, green, brown, and grey. Contact us for more information.
