PRODUCT DESCRIPTION

Designer: J.M. Tremoleda

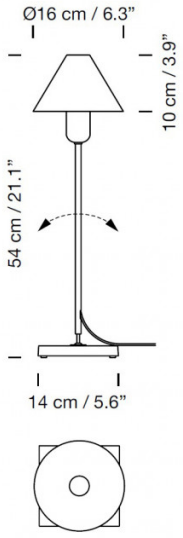

Santa & Cole Gira Table Lamp

Designed by Massana, Tremoleda and Ferrer in 1978, the Gira table lamp was an instant classic, pairing traditional lamp forms and innovative functions for a stunning and useful light. The table light features a sleek conical shade which is adjustable and a slim stem which can also be moved for a truly personalised user experience. The light can either stand straight up for an overall illumination or can be angled for a more purposeful glow.

The Gira table light comes with a brass, black anodized aluminium or natural anodized aluminium lampshade with each being paired with a simple chrome stem and grey base. The geometric qualities of each component make this table lamp truly modern and can be placed in a wide variety of settings such as homes, offices, hospitality venues and more.
