PRODUCT DESCRIPTION

Designer: Alberto Meda & Francesco Meda

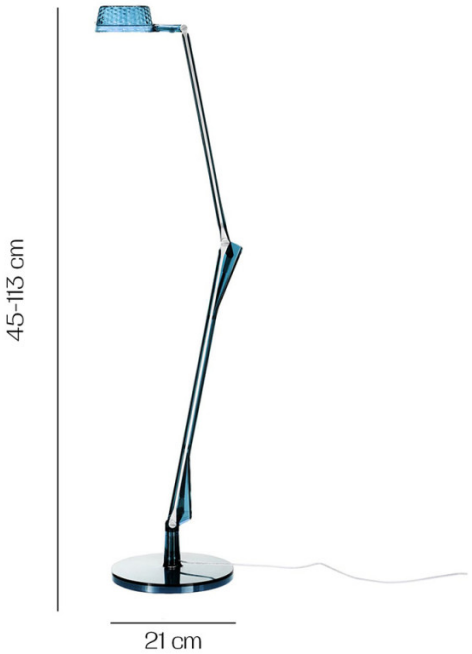

Kartell Aledin Dec LED Table Lamp

Part of the **Aledin Collection**, designed by Alberto and Francesco Meda, the Kartell Aledin Dec LED Table Lamp, with its distinct diffuser, becomes a colourful presence in the room. The Dec Table Lamp has a cone-shaped shade, emitting a wide array of light and making it an excellent task light for desks and other workspaces. The polycarbonate aluminium rods contained within the arms provide the power to the LED light source, instead of conventional wires, which makes the whole design sleeker.

The Kartell Aledin Dec Table Lamp can be easily dimmed via an integrated dimmer, with the highest dimming setting being class 3, emitting about 600 lumens. This makes it even easier for Dec to adapt to your interior and create the perfect ambience for your needs, whether you require a more direct work lamp or a more diffused reading lamp. You can select your Aledin Dec desk lamp and choose from 5 colour options: Amber, Blue, Crystal, Fume or Green.
