Filigree by Moooi

A true ode to the fine and delicate filigree jewelry, the Filigree was created by Rick Tegelaar. The designer was asking himself where lies the difference between a lamp and a light source. The Filigree is comprised of a sophisticated network of fine wire and a translucent screen. The integrated LED source is ingeniously hidden at the heart of the Filigree, emitting an even light in the room. The material mix well into each other, with brass, steel and aluminium interchanging and attributing the lamp with a classy feel.

The lamp can instantly change the atmosphere and create a playful game of shadows and light when facing the ceiling or wall. A light meant to also mesmerise you with its stunning and elaborate design, bring entertainment into any interior. Filigree has an adjustable height, maximum 240 cm, and can also be adjusted in direction. This allows you to point the lamp towards any desired direction, and highlight any features or spaces around it.

Designer: Rick Tegelaar

IP Code: 20

Dimming: In line dimmer included on cable.

Dimensions:

80 cm width

65 cm depth

160-240 cm adjustable height

300 cm cable length
