PRODUCT DESCRIPTION

Designer: Anna Castelli Ferrieri

Kartell Componibili Storage Unit

Designed to fit in every room of your house, the Kartell Componibili is a modular unit that comes with 2, 3 or 4 storage compartments and is available in 14 finish options. You can even stack each Componibili storage unit on top of each other and create as many tiers as you wish. Flexible, functional and practical.

The modular piece can rest on wheels, meaning you can move it whenever you wish and make it both versatile and functional. The Kartell Componibili, designed by Anna Castelli Ferrieri back in 1969, has been in production for almost 40 years. As part of its worldwide recognition, the Componibili has undergone various transformations and makeovers. The most significant being the **Smile** Componibili versions. The latest addition to the family, as part of the Kartell Loves The Planet project, has been the **Componibili Bio**, a fully sustainable and biodegradable edition.

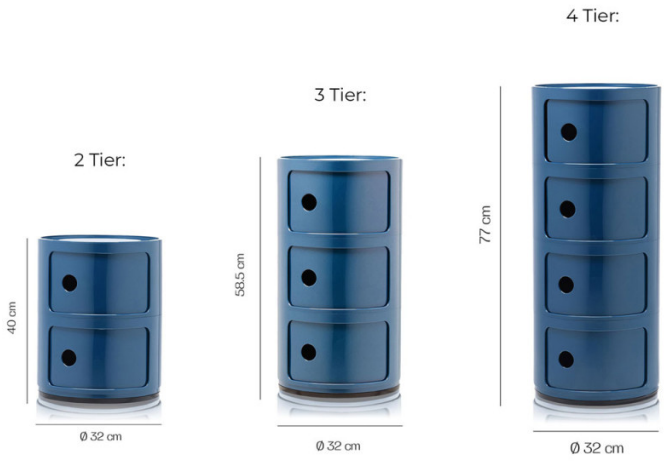

PRODUCT SPECIFICATION
