PRODUCT DESCRIPTION

Designer: Vicente Garcia Jimenez

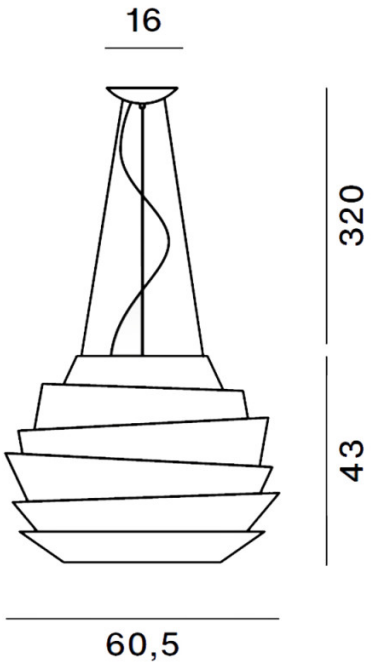

Foscarini Le Soleil LED Pendant Light

The Le Soleil LED Pendant is an illuminating sphere, that like the sun, shines bright and warm to fill the room. The pendant is made from 6 asymmetric rings that create a graphic and dynamic shape that is very reminiscent of the Guggenheim Museum in New York. The rings allow for bands of light to escape, pushing the light outwards to create a far-reaching glow.

Available in a white colour finish, the Le Soleil LED Pendant Light is very versatile and will easily slip into any design scheme. You can use it as a singular light or you can mix or buy in multiple to create a pendant display to light up bigger spaces. You can also choose if you would like a non-dimmable or dimmable version of the pendant light, so you can either create a tailored lighting ambience or a long-lasting steady glow. Both functional and decorative this light will not disappoint and will attract attention wherever you use it!

PRODUCT SPECIFICATION

Light Source:	46W, 2700K, 4460 Lumens
