PRODUCT DESCRIPTION

Designer: Ove Rogne

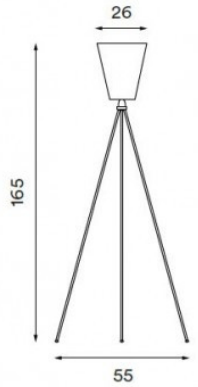

Northern Oslo Wooden Floor Lamp

The Oslo Wood Floor Lamp was created by designer, founder, and CEO of Northern, Ove Rogne. Ove, who was brought up surrounded by Norwegian wilderness, uses nature as an inspiration for his works. The Oslo Wood Lamp is a perfect example of this, with Ove stating that it reminds him of light shining through trees growing around a city centre. The shade diffuses light into a soft glow, while the opening at the top of the shade directs light upward, filling the room with light. A gimbal on top of the tripod base allows the shade to be rotated to angle the light in any direction.

The Oslo Wood Floor Lamp provides a wide range of options for customisation. The shade is available in seven colourways while the tripod base is available in six finishes, allowing you to mix and match to suit your style. The bright directional light from the Oslo Wood makes it an ideal lighting solution for living rooms, offices, or studios. Its modernistic profile suits contemporary commercial spaces such as bars and restaurants.

PRODUCT SPECIFICATION

Light Source:	1 x Max 100W E27 dimmable (excluded)
IP Code:	20
Dimming:	In-line dimmer included on cable.
Dimensions:	Height: 165cm Shade: 26cm Width: 55cm Cable Length: 200cm
