PRODUCT DESCRIPTION

Designer: Trond Svendgård

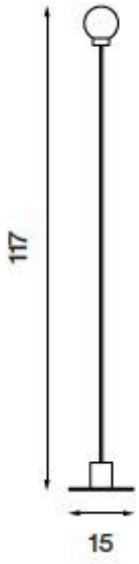

Northern Snowball Floor Lamp

The Nothern Snowball Floor Lamp is a sleek, minimalistic structure designed by Trond Svendgård. It is a modern take on the classic Bauhaus lamp. The sturdy stem rises from a geometric base; a strict, angular profile. At the top, a glass frosted globe balances elegantly a disc-shaped plinth. This combination of the geometric base and the soft, round diffuser creates a stark contrast in the design, appearing simultaneously intense and warm and welcoming.

The Northern Snowball is also available as a **table lamp** which can be displayed alongside the Snowball Floor Lamp to create a sense of balance. The Floor Lamp adds elegance to any interior. The globe diffuser filters light into a warm glow that surrounds the lamp and adds a welcoming ambience to the room. The lamp features a dimmer switch, allowing you to adjust the brightness of the light to suit the mood. Available in a black, brass, white, or steel finish, The Northern Snowball will add a timeless and sophisticated feel to any interior, whether domestic or commercial.
