moooi

T-Lamp by Moooi

T-Lamp was designed by Marcel Wanders for Dutch manufacturer, Moooi. The concept behind the lamp was based on kinetics and energy, gracefully tied together. Perhaps it is why the floor lamp reminds us of the innovative mobiles by American sculptor, Alexander Calder. T-Lamp floor lamp maintains its balance via a solid marble base and the counter weight. With a slim and streamlined silhouette, the lamp is the perfect lighting solution for any interior space. The lamp benefits from an integrated LED source, which can be dimmed, allowing you to tailor the light brightness. You can adjust the position of the light, as the horizontal stem can be tilted to a certain degree, constantly maintaining the perfect equilibrium.

Designer: Marcel Wanders

IP Code: 20

Dimming: In line dimmer included on cable.

Dimensions:

184.8 cm height

44 cm width

198.7 cm length

350 cm cable length
