### Brokis Macaron Table Lamp

Designed by Lucie Koldova, the Brokis Macaron Table Lamp captures the beauty and intricacy of natural stone through the lens of contemporary glassmaking. Its structure comprises two handblown glass domes encasing a central plate of stone or recycled glass, softly illuminated from below by a concealed LED source. As the light glows upward through the material, the inner textures and veining of the stone become visible, creating a mesmerising moonscape effect.

Every Macaron lamp is unique due to the natural variations in both the glass and the central material. Available in three sizes, including a large version suitable as a floor lamp, Macaron offers a wide selection of finish combinations. Glass options include transparent, smoke grey, amber, and light pink, while the centre and base can be crafted from onyx (white or honey), BROKISGLASS (triplex opal or smoke grey matt), or European oak. Ideal for bedrooms, lounges, reception areas, and hospitality settings, Macaron is a poetic fusion of light, material, and craftsmanship.
