PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Nenúfar 3 Pendant Light

With the aim of creating a pendant light that seems to float on air, Joan Gaspar designs the Nenúfar and takes its name from the water lily.

Marset Nenúfar is an LED pendant which can be composed of several discs attached to a central stem, these stems can be arranged into endless dynamic compositions. Each disc is separate and orientated around the central pole to allow an even distribution of light below.

Marset Nenufar is decorative and architectural, these pendant lights can be applied easily to homes or commercial interior designs. Clean, minimal lines, the Nenúfar boasts high-quality materials and cutting edge LED technology to radiate an exquisite luminosity and create warm, welcoming atmospheres.
