Bover Drop Mini Table.

Drop's small screen is made of borosilicate glass, finer and more delicate than blown glass.

The light source is an LED that is hidden so that light is the only protagonist. Then, when the light is projected and reflected in the materials that are found along the way, it creates a set of sparkles and shadows.

Also available with a dimmer switch on product base. Please contact with for more information.

IP Code: 20

Dimming: Non-dimmable.
