PRODUCT DESCRIPTION

Designer: Christophe Mathieu

Bover Drip/Drop A/01 LED Wall Light

Designed by Christophe Mathieu for Bover in 2017, the Drip/Drop A/01 LED Wall Light is a modern lighting solution with a refined arrangement. A perfect combination of a wall and a suspension lamp, the A/01 can successfully adapt to a multitude of interior décor styles - but it makes the largest impact in contemporary spaces. The difference between the Drip and the Drop is the glass shade. Drip uses minimalism to its advantage, made up of simple straight lines which project a direct downlight onto the space below. Drop is a more dramatic option, consisting of experimental curves and a much more diffused light. Both shades produce a functional but ambient illumination.

The Drip Drop A/01 LED Wall Light can be utilised in lounge areas as a reading lamp, next to your bed instead of a table lamp, in your hallway or even in a bathroom.

(Please Note: this wall light has an IP20 certification, so whilst it can be used in bathrooms please keep it a safe distance from water sources. See our information on bathroom zones [here](#).)

PRODUCT SPECIFICATION

Light Source: 3W, 2700K, 345 Lumens

IP Code: 20

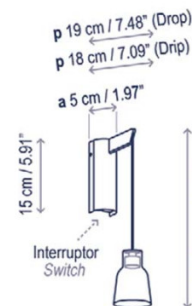

Dimming: Non-dimmable.

Dimensions: **Drip A/01**

Height: 37.5cm
