PRODUCT DESCRIPTION

Designer: Christophe Mathieu

Bover Drip/Drop A/03 LED Wall Light

Bover Drip/Drop A/03 LED Wall Light has practicality at the heart of its design, offering both a built in table and an integrated USB switch. Designed by Christophe Mathieu in 2017, this LED Wall Light is a perfect addition to next to your bed; it provides everything you could need from a bedside table, whilst taking up half the space.

The Drip/Drop A/03 is available with a choice of two shades, two different shapes crafted from different materials and showcasing different styles. The shades available are either Drip or Drop. Drip boasts a slender and minimalistic design with sharp clean lines, whilst the Drop shade creates a more dramatic effect in your room with distinctive curves and a wider diameter. Both shades can adapt to a range of settings, specifically contemporary interiors.

The Drip shade is crafted from borosilicate glass, resulting in a bright, yet still ambient, illumination that is perfect as a soft and glare free task light. Whereas the Drop shade is constructed from frosted glass, which emits a gorgeous light that is much more diffused than with the Drip - yet still functional.

PRODUCT SPECIFICATION
