PRODUCT DESCRIPTION

Designer: Christophe Mathieu

Bover Drip/Drop S/01 LED Suspension

Designed by Christophe Mathieu for Bover in 2017, the Drip/Drop S/01 LED Suspension adds a burst of colour to your space and blends in beautifully to contemporary interiors. Drip and Drop refers to the two shaped glass shades. Drip is a minimalistic and sleek diffuser with sharp clean lines, while Drop boasts distinctive curves and a more dramatic frame. With both Drip and Drop, the integrated LED light source illuminates directly downwards and discreetly through the glass shade., producing a functional but ambient downlight.

Drip/Drop S/01 can be especially effective above a dining area or over your kitchen counter in residential settings; and can create a beautiful atmosphere next to your bed at home or in hotels. These LED suspensions look beautiful when hung individually or as part of a cluster to have a more dramatic effect on your room.

Available with 1, 6, 7, 12, 24, 36 and 48 drops. For more information please contact us.
