PRODUCT DESCRIPTION

Designer: Christophe Mathieu

Bover Drip/Drop M/70 LED Table Lamp

The Drip/Drop M/70 LED Table Lamp by Bover is the definition of functionality - this table lamp is fitted directly into the table, with the base taking up as little space as possible. The shade is available in two shapes, Drip or Drop, which both boast very individual personalities. The Drip shade consists of straight lines and a slender design, letting the base of the lamp take the spotlight. Drip is constructed from borosilicate glass, resulting in a bright but ambient emission of light, with the LED light source easily leaking through the glass. The Drop shade is more confident, it harbours distinctive curves and is a true eye catcher, the Drop shade is constructed from frosted glass, emitting a beautiful light that is much more diffused than with the Drip - yet still functional.

Due to the lack of space the M/70 Table Lamp takes up, as well as the integrated USB port that sits on the base of the lamp, this lighting solution is perfect for both private and commercial workspaces. It is ideal for libraries, offices, cafes and coworking spaces.

PRODUCT SPECIFICATION

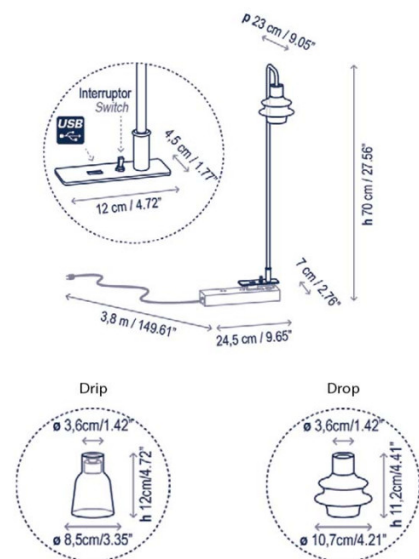

Light Source: 3W, 2700K, 345 Lumens

IP Code: 20

Dimming: Non-dimmable

Dimensions: **Drip M70**
Height: 70cm
Shade: Ø8.5cm
Depth: 23cm
Cable Length: 380cm

Drop M70
Height: 70cm
Shade: Ø10.7cm
Depth: 23cm
Cable Length: 380cm
