PRODUCT DESCRIPTION

Designer: Poul Henningsen

Louis Poulsen PH 5 300 Pendant Light

The Louis Poulsen PH 5 300 Pendant was designed by Poul Henningsen, who launched the luminaire as an answer to the constant change of bulb sizes by light manufacturers. After the success of his three-shade light system, Henningsen created the PH5 pendant light, which, no matter where you're sitting, emits zero glare due to the inner illumination being reflected through the five shades. This is the mini version of the **PH 5 500 Pendant**, released in 2017 to continue the spirit of the iconic design and to make it suitable for any space.

The PH 5 300 Pendant is available in 17 colour options, with 15 painted and 2 metallic finishes. It should be noted that the copper and brass pendants are untreated and therefore over time a patina will begin to form, which only adds to the beauty of the PH 5 300 pendant light. This process might have begun by the time the light is delivered.

PRODUCT SPECIFICATION

Light Source: 1 x Max 6W E14 LED (Excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Shade: Ø30cm
Shade Height: 16.3cm
Cable Length: 300cm
