PRODUCT DESCRIPTION

Designer: Omer Arbel

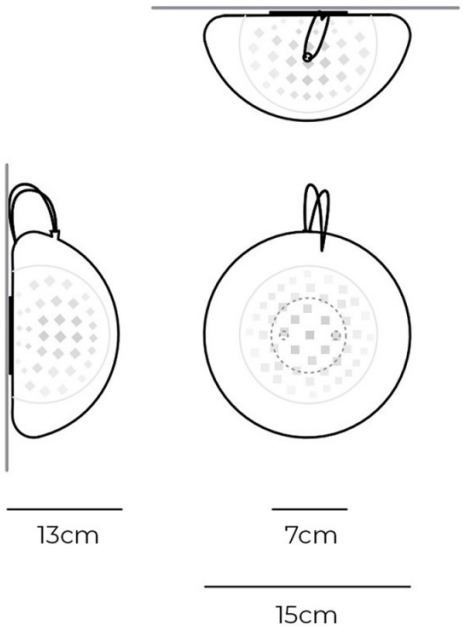

Bocci 76s Surface Light

Suitable for application on the wall and the ceiling, the 76s Surface Light was designed by Omer Arbel as part of the **Bocci 76 Series**. This ceiling/wall lamp boasts a metal mount and a glass lampshade that has layers of both white and clear glass that create a geometric pattern. The design is created by a vacuum pulling the glass layers through copper meshes that sit between each layer.

The Bocci 76s Surface Light is innovative and contemporary; it can be used in a variety of rooms throughout domestic and commercial interiors. Whether you need to line a hallway or create an ambient glow in your lounge, this surface light will not disappoint and will create an eye-catching aesthetic in any space.
