## PRODUCT DESCRIPTION

**Designer:** Omer Arbel

### Bocci 84.1 Single Pendant Light

The 84.1 Pendant Light is part of the **Bocci 84 Series**, a range that is defined by a clear and copper mesh lampshade. The pendant is created by a white glass globe that is surrounded by a copper mesh that is then pushed into hot clear glass. The white glass then comes through the mesh to create a pillowed effect that is eye-catching and mesmerising.

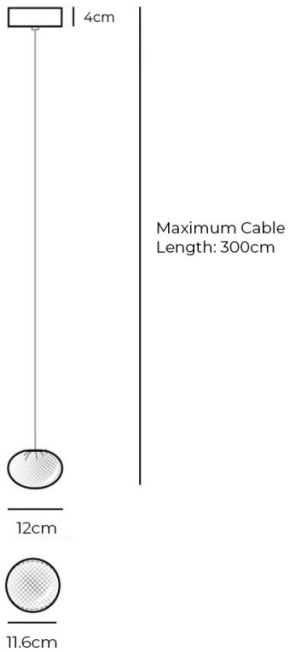

The 84.1 Pendant Lamp has gorgeous colour hues, creating effects of copper and pink, with the combination of the white glass and copper mesh creating a marvellous display. This pendant light can be used in a wide variety of settings, being a decorative addition to any interior. Use alone in small spaces or in multiples for larger rooms and choose between a dimmable (Xenon 10W light bulb) or non-dimmable (LED 1W) light source.

**This version of the 84.1 Pendant comes with a deep ceiling canopy but is also available with a flush mini canopy or a shallow canopy. Please contact us for more details and prices.**

**Please Note: All Bocci Suspension Lights come with a white ceiling canopy as standard. Other finishes are available; please contact us for more information and pricing.**
