PRODUCT DESCRIPTION

Designer: Omer Arbel

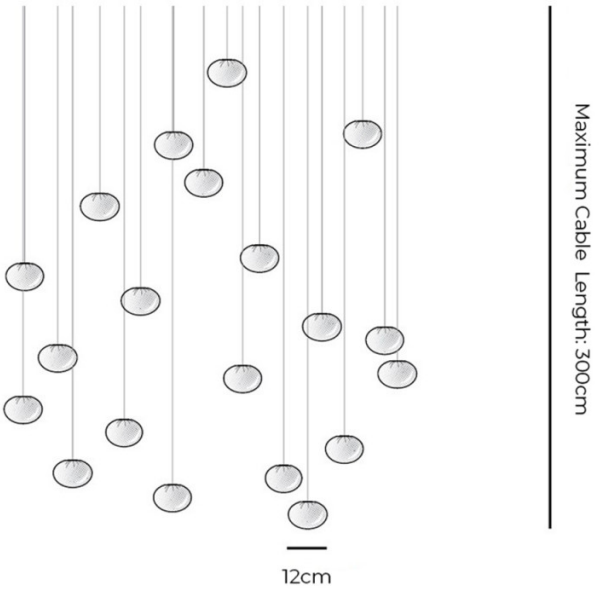

Bocci 84 Series Chandelier Light

The 84 Series Chandelier is made up of 11, 14, 20, 26 or 36 individual 84 Series Pendant Lights that are suspended from an included ceiling canopy. Several ceiling canopies are available with the choice between a square, rectangular or round canopy, which all give a unique look and aesthetic. The chandelier light is perfect for making an impact in your interior, with the rectangular chandeliers being particularly useful for hanging over tables and surfaces.

Each 84 Series Pendant is unique thanks to the special technique used to create each lampshade. A white glass globe is put inside a copper mesh, which is in turn plunged into clear hot glass. This causes the white glass to push through the mesh, creating a pillowed effect that is inviting and alluring. The copper and white colours combine to create pink, orange and yellow hues that catch the eye. Each chandelier also comes with light bulbs included, with the choice between a Xenon 10W or an LED 1W light bulb, and the cables are non-adjustable.
