PRODUCT DESCRIPTION

Designer: Lee Broom

Crescent Pendant Lee Broom

The centrepiece of the **Crescent Collection**, originally unveiled at Salone del Mobile in 2015, the Lee Broom Crescent Pendant features an illuminated sphere sliced in half to produce two halves. The spacing between these two hemispheres reveals a crescent-shaped brushed brass fascia, the light's namesake. The asymmetrical design of this pendant makes Crescent unique and becomes an instant eye-catcher wherever you decide to display it, the structure combines simplicity and elegance and allows the light to adapt to a wide range of backdrops.

The Lee Broom Crescent pendant emits a warm ambient illumination which avoids glare and creates a calming atmosphere, making it ideal for rooms where relaxation is the main focus. For this reason, the Crescent Pendant is ideal for bedrooms and living areas in residential spaces and in commercial spaces it excels in the hospitality sector, adding a touch of tranquillity to restaurants, bars and hotels.
