PRODUCT DESCRIPTION

Designer: Lee Broom

Lee Broom Mini Crescent Ceiling Light

The most compact light in the **Crescent collection**, the Lee Broom Mini Crescent Ceiling Light was unveiled in 2015 at Salone del Mobile. It features an asymmetrical opaque acrylic diffuser which runs throughout the entire range, emitting a calm ambient illumination in your space. Mini Crescent is fascinating, combining simplistic and elegant design with a unique silhouette designed by Lee Broom.

The bisected spherical diffuser is split in half to reveal a brushed brass core that resembles a crescent moon, which was the inspiration behind this ceiling light's name. This light appears to be frozen in time as it grants the illusion of the bottom hemisphere of the diffuser slipping away, whilst still remaining secure on the structure. The Lee Broom Mini Crescent Ceiling Light is a gorgeous addition to your living room, hallway, entryway and kitchen. It can also be displayed in groups in larger commercial spaces.
