PRODUCT DESCRIPTION

Series 87 Chandelier Lights by Bocci

The Series 87 chandelier is a beautiful and stunning light fixture that is made up of pendants from the [Bocci 87 Series](#). The lampshades are created in an interesting way, where soda water is used to trap air in a hot glass matrix which is then folded and stretched around a peg as the glass cools down.

The technique creates a unique aesthetic and with a transparent/white colour finish, the Series 87 chandelier light has an almost ethereal quality. The chandelier is made up of either 11, 14, 20, 26 or 36 pendants which are arranged on either a square, rectangular or round ceiling canopy. The light source sits in the top of the shade, which is included in the purchase, with the choice between a Xenon 10W or LED 1W light bulb. The cable lengths are non-adjustable and are arranged perfectly to provide a wonderful look and effective illumination.

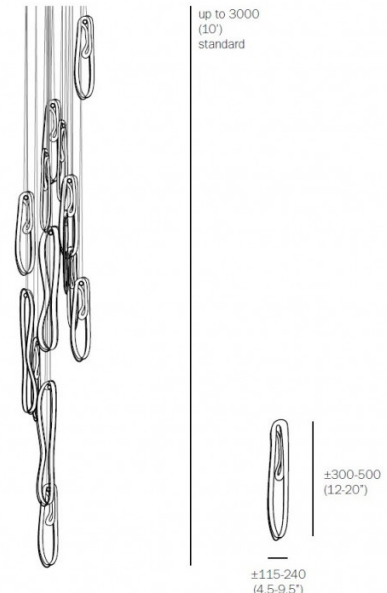

PRODUCT SPECIFICATION

Light Source: Max 10W 2700K G4 Xenon (included)
or
Max 1W 2700K G4 LED (included)

IP Code: 20

Dimming: Dimmable via mains phase dimming.
