PRODUCT DESCRIPTION

Designer: Lee Broom

Lee Broom Crystal Tube Pendant

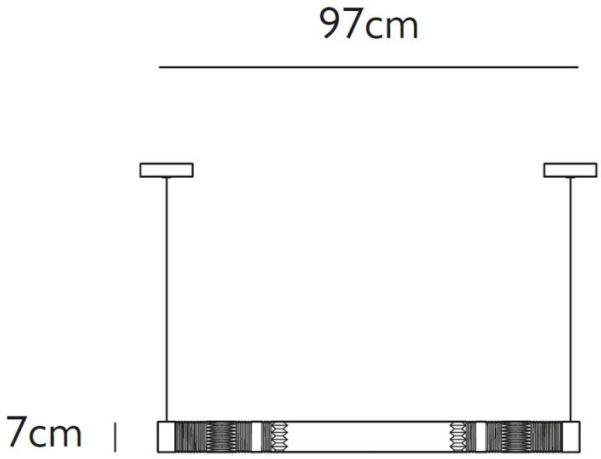

The Lee Broom Crystal Tube LED Suspension is a modern take on the traditional fluorescent tube, it is suspended by thin tensile wire at either end and can be hung either horizontally or at an angle. This linear suspension is characterised by its hand-cut and decoratively patterned crystal diffuser, within this diffuser lays the slender LED light source.

This LED Suspension emits a functional but warm illumination, making it perfect for spaces where you require task lighting but where your focus is relaxation.

Please Note: The Lee Broom Crystal Tube LED Suspension is supplied with a separate transformer
