## LE KLINT

### Lamella 1 Pendant by Le Klint

Have you ever looked at the underside of a mushroom? That is where the inspiration for the [Le Klint Lamella collection](#) came from. The delicate ribs beneath a mushroom are mimicked in the Lamella pendant by the pleated structure of the shade diffuser. The closed nature of the pendant provides glare free light emission indirectly, creating a pleasant ambience and is perfect for a dining or living room.

The Lamella 1 pendant is perfect for lighting a cosy room and looks equally as effective used alone or in a cluster with other shaped Lamella pendants, now all available with aluminium or golden metal finishes.

Designed by Jonah Takagi & Hallgeir Homstvedt, the whole collection's uniform pleated structure mimics their inspiration and this, paired with the soft silhouettes of the Lamella collection drives the design of this range. Simple yet intricate, Le Klint has gone back to the old handcrafted technique called Plica to product this beautiful collection.

Designer: Jonah Takagi & Hallgeir Homstvedt

IP Code: 20

Dimming: Dimmable via mains phase dimming

Dimensions:

Ø46cm

33cm height

Colour: Aluminium Finish

Golden Finish
