## LE KLINT

### Lamella 2 Pendant by Le Klint

This, the second pendant design in the [Le Klint Lamella collection](#), is an elongated form of the original rounder pendant light. The inspiration for the Lamella collection is the rib-like underside of a mushroom, mirrored in the pleated shade on the pendants, created using the old production technique of Plica.

The Lamella 2 pendant's tubular shape makes it perfect for rooms with more ceiling height and used as a cluster provides a truly inspirational display. The closed design means that the Lamella pendants emit a soft, diffused and warm light making them perfect for a hallway or living area.

Designed by Jonah Takagi & Hallgeir Homstvedt, the Lamella pendants are a perfect mix of tradition and modernity, juxtaposing the uniform pleats with a soft silhouette. An effortless looking pendant inspired by nature has made the Lamella a timeless collection.

Designer: Jonah Takagi & Hallgeir Homstvedt

IP Code: 20

Dimming: Dimmable via mains phase dimming

Dimensions:

Ø30cm

52cm height

Colour: Aluminium Finish

Golden Finish
