PRODUCT DESCRIPTION

Designer: Anne Qvist

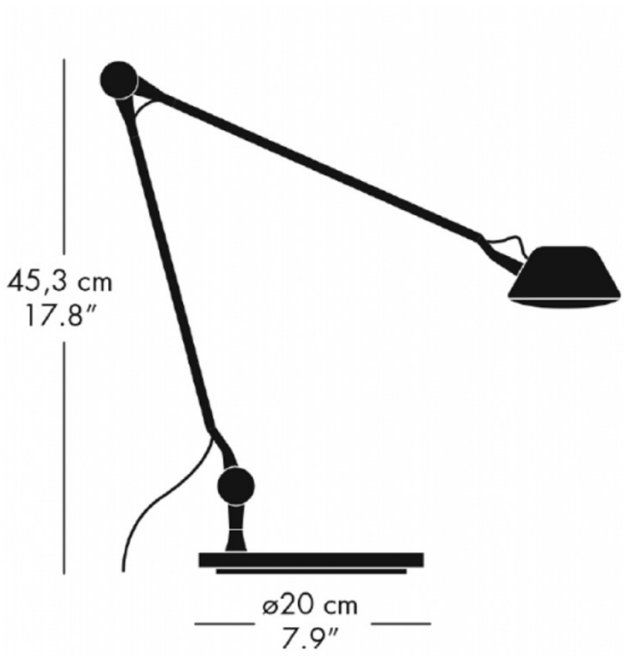

Fritz Hansen AQ01 LED Table Lamp

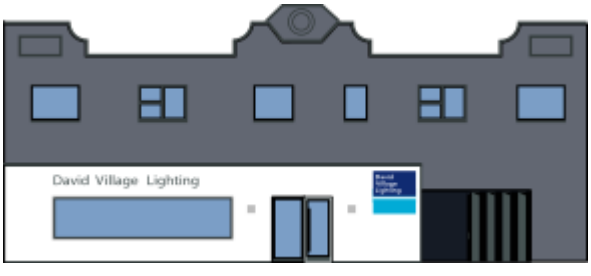

The Fritz Hanse AQ01 Table Lamp was designed by Anne Qvist in 2017, who uses a classic silhouette to produce a new and contemporary lamp that is chic and stylish. The table lamp is made from aluminium with two parts held by an internal spring, so you can adjust the lamp to where you need. This allows for directed downward light that is perfect as a reading or task light. The diffuser is made from polycarbonate, diffusing the light source to create a glare-free light that is warm and soft.

The AQ01 Table Lamp is also good for creating a nice ambience due to the diffused light and the integrated dimmer that sits at the top of the lampshade. This table light will work well in both homes and offices, and can be used on desks and side tables. Very versatile and modern, this desk lamp is perfect for a variety of settings.
