PRODUCT DESCRIPTION

Designer: Herman Studio

Ferm Living Herman Chair

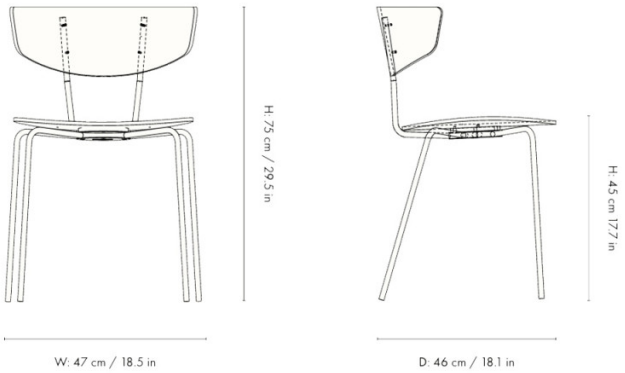

The Herman Chair was designed by the Danish design company Herman Studio. Jonas Herman draws inspiration from everyday life and basic needs for his projects. This, along with his fascination for natural wood, led to the creation of the Herman Chair. The seat and backrest are made from oak, while the frame is created from steel, powder-coated for durability and a luxurious finish.

The Herman chair is a minimalistic and elegant addition to any contemporary dining room. The chairs can be stacked together when not in use. The angle of the backrest is a considered feature which allows the chairs to be hung from a table, giving you space to easily clean the floor. The curved backrest provides back support and is designed to be comfortable enough for hours of use. Display in a contemporary dining room to complement minimalistic décor. In commercial spaces, the Herman Chair suits modern bars or cafes.

Please note, this product is supplied in packs of 2.

PRODUCT SPECIFICATION

Dimensions: Height: 75cm
Width: 47cm
Depth: 46cm
Seat Height: 45cm
