PRODUCT DESCRIPTION

Designer: Ferm Living

Ferm Living Loop Cushions - Pack of Two

The Loop cushion was designed by Ferm Living's in-house team. The bold patterns were created to explore new shapes and challenge the classics of geometry. The 3D effect is achieved using the loop weaving technique, which is where these cushions got their name. Each cushion is made from New Zealand wool, which is incredibly soft and has an itch-free quality. As with all Ferm Living's textiles, the Loop cushions are produced in Bhadohi, India. Known for its industry of handmade rugs, the region has a rich history of weaving.

As each production stage is done by hand, there may be slight variations from piece to piece. A slight alteration in colour or pattern ensures your cushion is unique to you. The eye-catching colour blocking paired with textile patterns adds a touch of character to any interior. Place the Loop on a sofa or on a bed to create a welcoming display with a homely touch.

PRODUCT SPECIFICATION

Dimensions: Height: 50cm
Width: 50cm
