SLAMP®

THE LEADING LIGHT

Slamp Cactus Suspension.

This lamp has the extraordinary ability to adapt to any space while remaining quite true to its inspiration. It owes its iconicity to the combination of geometry and the innovation of the materials used for both versions: Lentiflex® and l'Opalflex®. Both emanate an irresistible brilliance and suggestive prismatic reflections.

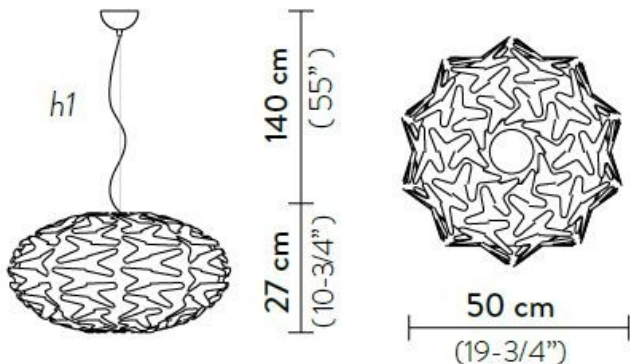

Dimming: Dimmable via mains phase dimming

Dimensions:

Ø 50 cm x h27 cm
