PRODUCT DESCRIPTION

Designer: Adriano Rachele

Slamp Cactus Floor Lamp

Crafted from high quality Opalflex and designed by Adriano Rachele, the Slamp Cactus Floor Lamp is guaranteed to turn heads. Opalflex is a material patented by Slamp that utilises polymers to create a recyclable synthetic material. Thanks to the material and the unusual design, this floor lamp emits a soft diffused glow and results in impressive light reflections that are projected into your room when the lamp is turned on.

Cactus provides a unique and characteristic light, whilst the neutral colours of the proposed finishes make it very versatile to be included in different furnishing styles. The Cactus Floor Lamp is perfect for mood lighting, ideal in your lounge area, bedroom or dining area. Really any room in your home that requires a relaxing ambience can benefit from this floor lamp.
